About Institution of Engineers India:

The Institution of Engineers (India) [IEI] is a statutory body to promote and advance the engineering and technology, established in 1920 and incorporated by Royal Charter in 1935. It is the largest multi-disciplinary professional body of engineers encompassing 15 (fifteen) engineering disciplines with a membership of more than 820 thousand, and serving the nation for more than 9 decades. The IEI has its headquarters located in Kolkata with national presence through more than hundred Centres and several Overseas Chapters, Foras and Organ.

IE INDIA AP State Centre: The then Vijayawada Local Center has been elevated to that of Andhra Pradesh State Center due to bifurcation of the combined AP State and a communiqué was received to this effect from our Headquarters on 25th July, 2016. After completing all formalities,

the **Letter of Warrant** was issued by the HQ which was handed over to the then Chairman and Hon. Secretary by the Secretary & Director General during the First Annual General Meeting held on 12th September, 2016. From then onwards, the AP State Center has been functioning actively and catering to the needs of all brethren engineers throughout the thirteen districts of Andhra Pradesh State. The membership strength of Andhra Pradesh State Center as on 31.03.2018 is 11,035. The centre library consists of valuable Project Reports, Text & Reference Books donated by the then Hon'ble Minister for Irrigation & Power, Govt. of India **Padmabhushan Dr. KL Rao**, so named the building as **Dr. KL Rao Bhavan**.

Institution of Engineers (India) Bhimavaram Local Center was established on 18.09.2015. The center was inaugurated through the golden hands of the then National President of IEI, Dr. LV Murali Krishna Reddy, FIE and the Letter of Warrant was issued for establishment of the center by the then Secretary & Director General of IEI, Er. B Brahma Reddy, FIE.

About workshop:

Internet of Everything (IoE) is an extension of Internet of Things (IoT) and it describes network devices communicating with each other, mainly emphasizing on M2M communication connected over public or private networks using standard and proprietary protocols. The IoE is based on 4 pillars: people, process, data, and things builds on top of IoT with one pillar: things. In addition, IoE further advances the power of the Internet to improve business and industry outcomes, and ultimately make people's lives better. There are many applications of IoE that include e-Health, Home Automation, Smart Farming/ Agriculture, Smart Energy/ Cities etc.

Speakers: Er. D. Rama Krishna, MD – Efftronics Systems Ltd., Vijayawada & Er. Rajan, Engineer – thingTronics Innovations Pvt. Ltd., Bangalore.
