

# **SRI VASAVI ENGINEERING COLLEGE**

(Sponsored by Sri Vasavi Educational Society)

(Approved by AICTE, New Delhi & permanently affiliated to JNTUK, K)

(Accredited by NBA & NAAC with 'A' Grade)

Recognized by UGC under section 2(f) & 12(B))

Pedatadepalli, Tadepalligudem – 534 101. W.G.Dist. (A.P.)

## **WORLD ENVIRONMENT DAY- 2015**

**The Theme For 2015**

**7 Billion Dreams, 1 Planet Consume with Care**

**DEPARTMENT  
OF  
BASIC SCIENCE AND HUMANITIES**

# **WORLD ENVIRONMENT DAY- 2015**

## **History of World Environment Day**

World Environment Day was established in 1972 by the United Nations during the Stockholm Conference on the Human Environment. The event was a result of discussions on the impact of human interactions on our environment. The first-ever Environment Day was held in 1974 in the city of Spokane, USA. The theme for that year was 'Only One Earth', and ever since, every year, this day has been celebrated with a particular environmental theme. This day is hosted by a different country every year. The idea to select different host countries started in 1987.

## **Significance**

World Environment Day raises awareness, mobilises action, and promotes environmental sustainability. Through campaigns, events, and initiatives, World Environment Day inspires individuals and communities to make changes, fostering a sense of urgency and addressing environmental challenges for a sustainable future.

## **7 Billion Dreams, 1 Planet Consume with Care**

The theme for 2015 is how “the well-being of humanity, the environment and economies ultimately depend on the responsible management of the planet’s natural resources. Evidence is building that people are consuming far more natural resources than what the planet can sustainably provide. Many of the Earth’s ecosystems are nearing critical tipping points of depletion or irreversible change. By 2050, if current consumption and production patterns remain the same and with a rising population expected to reach 9.6 billion, we will need three planets to sustain our way of life. Living well within planetary boundaries is the most promising strategy for ensuring a healthy future.”

## **Celebration of WED in Our Campus**

On this occasion of World Environment Day-2015, Department of Basic Science and Humanities celebrated WED by conducting Live Projects Exhibition in Environment Science on June, 5<sup>th</sup> 2015. A good number of students of Sri Vasavi Engineering College participated in this Live Projects Exhibition. Winners of this Exhibition were given prizes and certificates.
