## Department of Civil Engineering

## NEWS LETTER

ISSUE: DECEMBER 2022

### ABOUT THE DEPARTMENT:

Infrastructure development created by Civil Engineering is playing a very important role in the growth of any country. But day to day practices necessitates the usage of integrated analysis, generative design and visualization and simulation tools which is increasing tremendously. These tools enable the Civil Engineers to deliver more business, improve operational efficiency, Deliver high-quality building and infrastructure projects that exceed performance requirements. In view of the above department is utilizing different software tools like Revit Architecture, ETABS, Staad Pro, Primavera, Auto Cad Modeling, 3D max modeling etc., which Improve predictability in the field with tools that maximize constructability and project co-ordination.

### STUDENT STRENGTH:

Academic Year (2022-2023)

| Academic Batch      | Total Strength |
|---------------------|----------------|
| II year ( III SEM ) | 59             |
| III year (V SEM )   | 63             |
| IV year (VII SEM)   | 63             |

### Newly Joined Faculty:
