E-GOVERNANCE

Sri Vasavi Engineering College has revolutionized how academic institutions operate by using E-Governance, making various activities efficient, transparent, and user-friendly. The college uses an ERP system called ECAP provided by Webpros Solutions PVT LTD, college website, A-Mail, and Tally for administration, finance & accounting, admission support, and examination purposes.

ECAP (www.sves.org.in/ecap/):

Administrative Activities: The organization uses ECAP in administrative activities. ECAP automates administrative processes, such as leave applications. It is also utilized for employee onboarding, attendance management, and performance evaluation, making them more efficient and transparent.

Finance and Accounting: ECAP facilitates electronic payment systems. This helps streamline student fee payment processes, reduce the need for manual handling of checks or cash, and improve transaction speed and accuracy. Adopted electronic invoicing (e-invoicing) systems enable the generation, transmission, and tracking of invoices electronically. ECAP also keeps records of student fees and faculty salaries.

Student Admission and Support: Sri Vasavi Engineering College does the admission process through the EAPCET, formerly known as EAMCET, conducted by APSCHE (Andhra Pradesh State Council of Higher Education). Hence most of the admission process happens through the EAPCET portal. The organization finishes the admission process by updating the details in ECAP and collecting the fee through ECAP using online payment. ECAP also provides academic support to students. It has a facility for tracking student progress and performance. This allows students to access their academic records, examination results, attendance details, and course completion status. Also, the student mentoring process has been made online using ECAP.

Examinations: ECAP streamlines and enhances the examination process, including exam administration, registration, conduct, evaluation, and result management. The organization uses ECAP in various examination activities, including Online Exam Registration and fee payment, Exam Schedule and Timetable, Result Processing and Management, Exam Data Analytics, etc.

College Website (www.srivasaviengg.ac.in):

Administrative Activities: The organization also uses the college website to share documents like regulations. It also has a facility for grievance redressal for both students and staff.

Finance and Accounting: College website facilitates electronic payment systems for student fee payment.

Student Admission and Support: The website allows students and parents to take a virtual tour of the college, which will enable them to know what facilities are available before admission. It also allows students to access the material prepared by the faculty, which helps them with their exam preparation.

Innovations by the Faculty in Teaching and Learning

Activities of the department towards improvement in teaching-learning are indicated in the office records as well as in college website. They are open for reproduction, for further improvement and for review.

Some of the methods adopted by the faculty members in Teaching & Learning are:

- Presentations using PPT, wherever necessary.
- Technical videos for demonstration of certain concepts.
- Usage of Software's like Rational Rose, R Software to demonstrate the concepts practically.
- Use of E-Learning Resources like NPTEL lectures, Online journals and Online lectures like QEEE & MOOCS for effective learning.
- Providing Question bank with short answer questions and quiz questions.
- Student paper and poster presentations.
- Student seminars.
- Conducting peer group learning to encourage the slow learners.
- Student participation in skill tests and technical events.
- To incorporate real time problem solving skills we are using online tools like EBOX, EDYST etc.

(i) Innovations in Teaching and Learning
- Project Based Learning
- Z TO A Approach
- NPTEL Web and Video Courses
- PPTs
- Question Banks
- Mind Map
