Sir,

Sub:-Dr.YSRHU - Works - University Campus - "Construction of Administrative Building Second Phase (G+2 floors with an plinth area of 2550Sqm) at University Campus, Venkataramannagudem, West Godavari District" - Quality Testing Reports for compressive strength of fly ash brick samples (5 Nos.) - Requested - Regarding.

Ref:-Agt.No.58/2018-19; Dt.20.07.2018 of the Estate officer, Dr.YSRHU, Venkataramannagudem.

With reference to above subject, I'm herewith informing that the work "Construction of Administrative Building Second Phase (G+2 floors with an plinth area of 2550Sqm) at University Campus, Venkataramannagudem, West Godavari District" is going on.

In this connection, it is to request that the samples of fly ash brick which are used in the above mentioned work has to be tested for their compressive strength. So, please provide us with the quality testing reports of compressive strength of the samples of fly ash brick (5 Nos.).

This is submitted for further necessary action.

Yours faithfully,

Sir ,

Sub :- Works-PRI Sub Divn, Tadepalligudem-MPLADS - Additional Accommodation to Multipurpose Building Located Near NH16 Bypass Road in Chinatadepalli (V) of Tadepalligudem (M) Estimate Rs 25.00 Lakhs- Test Reports on M 25 design Mix , Strength of Bricks , Impact value of Aggregates , Tensile Strength and Rebend strength of Steel - Requested-Reg.

@@@@@

The work " Additional Accommodation to Multipurpose Building Located Near NH16 Bypass Road in Chinatadepalli (V) of Tadepalligudem (M) Estimate Rs 25.00 Lakhs and entrusted on tender basis.

In which VRCC is proposed with M25 Design Mix for columns and Roof slab and Masonry is proposed with Country Bricks.

I am here with sending the following Materials for Conducting the following tests

1. 20 mm HBG metal , 12 mm HBG chips , Sand , Cement 1 bag - for Design Mix of M25
2. Country Bricks - for Compressive Strength and water absorption
3. 25mm , 16 mm, 12 mm, 10 mm, 8 mm dia steel rods of 1 metre Length Each (MS Life Steel)- for Tensile Strength and for Rebend Strength

I request the Head of the Department , Civil Engineering to conduct the above tests and results may be communicated at an early date , the necessary test charges will be paid after receipt of the test results

Yours faithfully

administrative Sanction for the work " Construction of Kreedaa Vikaasa Kendram at Air
Field Land Tadepalligudem of West Godavari District and the work also commenced

I am herewith send the RCC Cubes collected from the Site during execution of the
works i.e. "Construction West Godavari district " The details are as follows.

S.No	Specimen details and size.	No of Cubes	Date of casting	On which date concrete cubes attaining the age.	
				7 days	28 days
1	Plinth Beam (A6-A8)	3	11.08.2018		05.09.2018
2	Plinth Beam (H9-H11)	3	11.08.2018		05.09.2018

I therefore request the Principal, Vasavi Engineering College Tadepalligudem, to
arrange for conducting compressive strength test for the above cubes on payment basis
The testing charges will be paid by the Contractor.

As above.

Yours faithfully,

Dy Executive Engineer,
Construction Division, APSHCL,
Tadepalligudem - West Godavari.

Sub: Request for preparing a design mix for our construction site at madhavaram, a CSR activity bhara
dynamics limited

Dear sir,

With reference to the above subject matter, we have submitted the aggregate and chemical compound
collected from jai balaji rmc plant which provide us ready mix concrete for our slabs. We request you to
please provide us with a design mix for M-25 grade concrete using the samples submitted by us and
issue it addressing our client : bhara dynamics limited, kanchanbagh

List of samples submitted :

1. 2 bags of ultratech opc cement
2. 2 bags of river sand
3. 4 bags of coarse aggregates
4. 1 liter of admixture

You are kindly requested to design a mix design

Thanking you,

Yours sincerely,

Dear sir,

In view of the above, we would like to submit our samples of steel, cement, cubes, soil and aggregates. You are kindly requested to perform the following tests and provide us with a certified copy of the quality of materials. The samples given and tests that needed to be done are as follows.

1. Steel : tensile strength and elongation percentage
2. Cement: specific gravity, standard consistency, fineness, initial setting, final setting, compressive strength
3. Water: Ph, acidity, alkalinity, percentage of solids, suspended matter etc.
4. Soil: Field dry density, Percentage of compaction. (soil sample taken from 2nd layer of zphs)
5. Fine Aggregates: Bulking, Sieve analysis- particle distribution (samples collected from site which are used in casting of rcc)
6. Coarse aggregate : Particle distribution.
7. Concrete cubes: cubes casted during the RCC of ZPHS COLOUMNS.

You are kindly requested to issue a certificate to our client Mr. Rudraksha Bhagath, ASST manager, Bharat dynamics limited, Kanchanbagh, hyd.

I hope you shall find the above in order.

Thanking you,

Yours sincerely,
