Sir,

Sub: Industrial visit of your students along with Faculty Members – Reg.

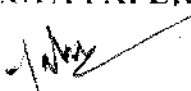

Ref: Your letter dt.27.03.2019.

74 students of I B, Tech II Semester Mechanical Engineering “A” & “B” sections and 4 Faculty members from each section of your college have visited our Industry today i.e., 27.03.2019.

During the visit students have shown keen interest on the processes and various stages in the manufacturing of paper and they are very much enthusiastic in learning.

Thanking you,

This is to bring to your kind notice that, Sri Vasavi Engineering College is one of the leading Engineering colleges in this region. Under Institution of Engineers (I) Engineering College Students' Chapter, various technical activities are being organized to enhance the technical skills of students every semester. In this regard, i seek your permission to allow our II B.Tech., 'A' & 'B' section Mechanical Engineering students (64+61 nos.) to visit your Industry. This Industrial visit will help our students to understand the various practices followed in a process industry. Two senior faculty members will accompany the students and list of students is enclosed herewith.

Yours sincerely

Dear Sir,

Sub: Completion of Industrial visit of Students - reg.

><><>

This is to bring your kind notice that our is a supplier, manufacturer and exporter of specialty fats, Oil Palm, Power, Oils & Fats, consumer products (FMCG), edible oils, bakery fats etc. The students of II B.Tech II Sem ME - 'A' & 'B' Sections of your college visited our Industry on 25-02-2019 & 26-02-2019. During the visit they have learned the processes and various stages of manufacturing activities. There are 58 Students of II- II-A and 55 students of II-II-B along with 2 faculty members from each section visited and the students are very much enthusiastic in learning.

Thanking you,

Yours faithfully,

Report of One-Day Seminar/Workshop

Brief Details about the Programme:

COMPUTATIONAL FLUID DYNAMICS USING MATLAB

23-02-2019:The Institution of Engineers (India), Bhimavaram Local Center in association with Department of Mechanical Engineering of Sri Vasavi Engineering College, Tadepalligudem organized a One day Workshop on “**Computational Fluid Dynamics using MATLAB**” on 23rd February (Saturday) at Sri Swami Vivekananda Seminar Hall. Around 150 people both faculty and budding engineers from various engineering colleges have participated in this Workshop.

Inauguration – 10:00-11:00(AM)

Mr. D.V.N Prabhakar, Assistant Professor, coordinator of the Workshop, member of Institution of Engineers(India) welcomed the audience and invited the dignitaries on to the dais. The Inaugural Function started with lighting the Jyothi by the Chief Guest and other dignitaries on the dais and the prayer song sung by IIIrd year Mechanical Engineering students Ms. A. Niharika & Ms. G. Mamata Devi. While delivering his opening remarks, the coordinator conveyed his heartfelt thanks to the management , Chief Guest Dr. V.R.K Raju, Associate Professor, NIT, Warangal, Principal, Dr. Guduru VNSR Ratnakara Rao, Dean R&D, Dr. P.V.V Rama Rao and HOD of the Mechanical Engineering Department Dr. M.V Ramesh of Sri Vasavi Engineering College, for accepting the request, amidst us and make the workshop a grand success. Dr. P.V.V Rama Rao briefed about the Institution of Engineers(India) activities and stresses upon the

need for MATLAB tool. The Professor & HOD of Mechanical Engineering Department Dr. M.V Ramesh gave various applications of CFD in Engineering field, and advised students to learn about basics to advanced topics in CFD and practice varieties of problems using MATLAB tool. Principal of the College Dr. Guduru VNSR Ratnakara Rao explained in detail about the recent developments in the CFD, and importance of the Computational Fluid Dynamics (CFD) in industry and opportunities for CFD professionals. President Sri G. Satyanarayana, Vice president Sri CH. Srimannarayana Murthy, Director Technical Sri Ch. Apparao informed that the college will encourage and support in all directions for the students and faculty who are interested to work in these areas.

Ms. Mounika Priya, student of Mechanical Engineering of Sri Vasavi Engineering College introduced the resource Person. The Resource Person of the workshop, Sri V.R.K Raju, Associate Professor, Department of Mechanical Engineering, NIT, Warangal is expert in CFD analysis and having rich research experience in this area.

The Technical Session was started where Dr. V. R.K Raju elaborately discussed the following points:

- What is Computational Fluid Dynamics (CFD)
- Why and where use CFD
- Physics of Fluids
- Navier-Stokes Equation
- Numerical Discretization
- Grids
- Boundary Conditions
- Solver and Numerical Parameters

Valedictory – 4:00-5:00(PM)

After Completion of one day workshop, the Valedictory function is done with the dignitaries on the dais Sri Ch. Apparao (Technical Director), Dr. P.V.V.Rama Rao (Dean R&D), Dr. Guduru. VNSR Ratnakara Rao (Principal), Dr. M. V. Ramesh (HOD of ME) of Sri Vasavi Engineering College, Tadepalligudem and Resource Person Dr. V. R.K Raju. The dignitaries felicitated the resource person Dr. V.R.K Raju and presented a Memento as a token of remembrance. Some of the participants gave their oral feedback on the one day workshop and expressed their satisfaction and conveyed thanks to organizers. Finally, vote of thanks was proposed by Mr. D.V.N Prabhakar, coordinator of the event and concluded.

Details of the Sessions:

Fore Noon Session: COMPUTATIONAL FLUID DYNAMICS -Introduction of the following concepts :

- INTRODUCTION ABOUT CFD – Fluid problems involve physics of fluid, Navier stokes equations, Discretized form, Grid generation, Computer programme and simulation results.

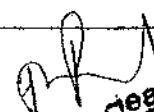

- ADVANTAGES OF CFD VS EXPERIMENTAL RESULTS :
 - Simulation is cheap
 - Takes less time
 - Repeatable
 - Gives more information
 - Safe
- APPLICATIONS F CFD : Aerospace, Automotive, Biomedical, Chemical Processing, HVAC, Hydraulics, Power generation and Marine
- CONSERVATION LAW : Mass, Momentum and Energy law
- NAVIER-STOKES EQUATIONS I, II,III and IV
- NUMERICAL DISCRETIZATION : Discretization Methods are
 - Finite difference Methods : Straight forward to apply, simple, structured grids
 - Finite Element Methods: Any geometries
 - Finite Volume : Conservation, any geometries
- GRIDS :
 - Structured grid : All nodes have the same number of elements around it
 - Unstructured grid : for all geometries, irregular data structure
 - Block structured grid
- SOLVER AND NUMERICAL PARAMETERS:
 - Solvers : a) Direct- Cramer's rule, Gauss elimination, LU decomposition :
 - b) Iterative – Jacobi method, Gauss-Seidel method, SOR method
 - Numerical Parameters :
 - a) Under relaxation factor, convergence limit, etc
 - b) Monitor residuals
 - c)Number of iterations for steady flow or number of time steps for unsteady flow
 - d) single/ double precisions

Afternoon Session:

MATLAB CODE –Introduced the coding in MATLAB for solving CFD problems

- Boundary value heat transfer problem using Gauss-Seidel method
- Boundary value heat transfer problem using Jacobi method

Sir,

Your proposal for organising the subject One Day Workshop has been approved by Competent Authority. Kindly arrange to organise the activity as per approved Guidelines of the Institution, copy of which is attached for your ready reference.

Further, on successful completion of the Workshop, the Host Centre should send the detailed report of the activity as per the enclosed format to the Headquarters within 15 days from the date of culmination of the Seminar. Detailed report should include:

- a) Full text of the lectures (at least five in numbers) delivered by the dignitaries during the Seminar which should also include the technical content of the lectures (based on the theme of the Seminar).
- b) Photographs (view of the dais) of the Seminar depicting clearly the banner of the IEI and its logo, theme of the Seminar, dates, etc.
- c) Photographs of the dignitaries delivering lectures.

The grant of Rs 10,000/- will be released after receiving the detailed report as mentioned above.

Thanking you,

Brief Report

An Interactive Session on “Rubber Technology for Mechanical Engineers”

conducted on 9th February 2019.

Programme Objective : Give a brief knowledge to Mechanical Engineering students about the applications and modern trends in Rubber Technology of present industrial scenario.

Programme Details : An Interactive session was conducted by the Department of Mechanical Engineering on “Rubber Technology for Mechanical Engineers” by Dr. Santanu Chattopadhyay, Associate Professor, IIT Kharagpur on 9th February 2019 in E-Class room from 2.00 PM to 03.15 PM.

About the Resource Person :Dr. Santanu Chattopadhyay

has done his Ph.D from IIT, Kharagpur and Post Doc. from Gatech, USA.

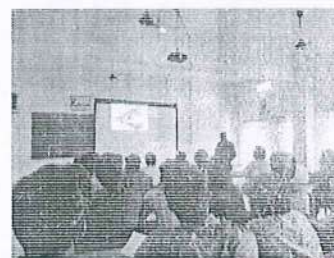

http://www.l.iitkgp.ac.in/fac-profiles/showprofile.php?empcode=bVmbR&depts_name=EC

Programme Highlights:

Around 100 students from III & IV B.Tech., Mechanical Engineering have been participated in the Guest Lecture. The resource person has given a brief knowledge about the Rubber Technology and also covered the latest technological trends considering the field of research. He has shown various products of rubber, especially for the damping and isolation of heavy

dynamic structures. At the end of the session, the resource person given some practice problems and clarified student doubts. The following members: Head of the Department Dr. M.V Ramesh, Senior faculty members, Sri V.Sarat Teja and Sri P.V. Krishna Rao are given their extensive support to make the programme successful.

About IE India:

The Institution of Engineers (India) [IEI] is a statutory body to promote and advance the engineering and technology, established in 1920 and incorporated by Royal Charter in 1935. It is the largest multi-disciplinary professional body of engineers encompassing 15 (fifteen) engineering disciplines with a membership of more than 820 thousand, and serving the nation for more than 9 decades. The IEI has its headquarters located in Kolkata with national presence through more than hundred Centres and several Overseas Chapters, Foras and Organ.

Institution of Engineers (India) Bhimavaram Local Center was established on 18.09.2015. The center was inaugurated through the golden hands of the then National President of IEI, Dr. LV Murali Krishna Reddy, FIE and the Letter of Warrant was issued for establishment of the center by the then Secretary & Director General of IEI, Er. B Brahma Reddy, FIE.

About Sir C. R. Reddy College of Engineering:

Sir C.R.Reddy College of Engineering is the first Engineering College in Andhra Pradesh sanctioned and recognized by All India Council for Technical Education (AICTE). This College is permanently affiliated to Andhra University, Vakhapatnam and affiliated to JNTU, Kakinada.

Since its inception in 1989, Sir C.R.Reddy College of Engineering has been a premier institute for quality engineering education in Andhra Pradesh under the stewardship of its broad minded and magnanimous management. The last two and a half decades has seen the Institute fulfilling its motto of 'QUALITY SERVICE & VALUE BASED EDUCATION' to the student community.

Adhering to its core values, the institute gives priority to ethical values and high standards and commitment to value based education. The College is located in its own sprawling campus with an area

of 30.48 acres. Its magnanimous infrastructure and greenery attracts the attention of people who pass by. The vast green campus housing several Departments provides a stimulating environment to the high caliber staff and students of the institution.

The Campus at Vatluru is a place where students from all walks of life are under a single umbrella pursuing their BE/B.Tech, M.Tech, MCA and MBA courses.

About Seminar:

Proper solid waste (SW) disposal is a major challenge worldwide. Uncontrolled waste dumping has adverse impact on the surrounding environment. According to waste hierarchy, land filling is the least preferred option. Therefore, there is an urgent need to understand various mechanisms by which recycling and recovery of various waste components could be maximized. At the same time, the land requirement for waste disposal will be reduced significantly which is not easily available in urban cities due to continuously growing industrial and other activities. The main goal of this seminar on Solid Waste Management is to enlighten all the concerned stake holders of the society on the essential principles entailed in the management of society's waste in a manner that meets public health and environmental concerns as well as taking into consideration, the public's desire to reuse and recycle waste materials. During the seminar, the source, composition and properties of solid waste will be discussed. Advanced principles related to the separation, processing, and transformation technologies of solid waste will be discussed. The reuse and/or sale of recovered materials are some of the focused topics of this seminar.

Respected sir/madam.

as apart of spreading energy conservation ideas among students. PCRA is conducting a series of such energy awareness programs. PCRA has appointed undersign as external faculty to conduct energy awareness programs in institutes and industries .

If your institute is interested for such program then on behalf of PCRA undersign would like to conduct an 'Industrial Workshop' on Energy conservation topics.

the programme may broadly cover some of the below areas :

1. Energy conservation in Domestic Sector/Area.
2. Energy conservation in Transport Sector.
3. Topics on sustainable development etc.

the programme will be for 3 hrs and would be more interested to interact and interchange the views and share knowledge's.

we would be conducting the programme under aegis of PCRA and will need the following:

1. conference hall with projector arrangements.
2. participants in Mechanical and Electrical Branches minimum 25 and maximum 50 students.

if your institute has any interest for such kind of programs.

it is requested to confirm the same to undersign,

The feasible date for such program can be finalised as per your institutes consent.

Circular

(Attention All B. Tech., MECH & EEE Students)

It is hereby informed that the department of Mechanical Engineering is organizing one day workshop on “Energy Conservation” on 24th September 2018 (Monday) under Institution of Engineers (I)-Engineering College Student's chapter. All the registered for the programme from B.Tech.,(I,II,III & IV years) students of Department of Mechanical Engineering and Department of Electrical & Electronics Engineering are requested to assemble in Sri Ramanujan Seminar Hall of BSH department by 9.30 AM. All the respective class teachers are requested to monitor the students discipline during the event.

Expected outcomes of the programme:

After the successful completion of the programme, students will be

- Able to understand various methods for Energy Conservation (K2)
- Able to compare various technologies for effective Energy Conservation (K4)

Sir,

Sub: Feedback on Industrial Workshop conducted at our college premises - reg.

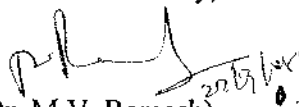

An industrial workshop on "Energy Conservation" was conducted by Sri T.Srinivas on 24.09.2018 at our college premises.

Useful information and inputs were provided by the faculty related to Energy Conservation measures to the students.

The programme was really good and we look forward for conducting such kind of programmes related to Energy in near future.

Thanking you sir,

Yours faithfully,

(Dr. M.V. Ramesh)

About IE India:

The Institution of Engineers (India) [IEI] is a statutory body to promote and advance the engineering and technology, established in 1920 and incorporated by Royal Charter in 1935. It is the largest multi-disciplinary professional body of engineers encompassing 15 (fifteen) engineering disciplines with a membership of more than 820 thousand, and serving the nation for more than 9 decades. The IEI has its headquarters located in Kolkata with national presence through more than hundred Centres and several Overseas Chapters, Foras and Organ.

About IE INDIA, AP State Centre:

The then Vijayawada Local Centre has been re-designated as Andhra Pradesh State Centre due to bifurcation of the combined Andhra Pradesh State and a communiqué was received to this effect from our Headquarters on 25th July, 2016. After completing all formalities, the Warrant of Establishment of Andhra Pradesh State Centre was issued by the HQ which was handed over to the then Chairman and Hon. Secretary by the Secretary & Director General, Maj. Gen. (Dr.) S Bhattacharya, VSM (Retd), FIE during the First Annual General Meeting held on 12th September, 2016. From then onwards, the Andhra Pradesh State Centre has been functioning actively and catering to the needs of all brethren engineers through out the thirteen districts of Andhra Pradesh State. The membership strength of Andhra Pradesh State Centre as on 31.03.2018 is 11,035. The Chairman and Hon. Secretary of the First Committee of AP State Centre nominated by the President are : **Dr. M Kamaraju**, FIE and **Er. GV Srinivasulu**, MIE respectively. The Centre Library Consists of valuable project reports text & Reference books and other important books donated by the then Hon'ble Minister for Irrigation & Power, Govt. of India, **Padmabhushan Dr. KL Rao**, so we named after our building as **Dr. KL Rao Bhavan**. Now, **Dr. P Kodanda Rama Rao**, FIE and **Er. M Seshagiri Rao**, MIE are the Chairman and Hon. Secretary of the Andhra Pradesh State Centre respectively.

About the College:

The Gudlavalleru Engineering College was established in 1998 by A.A.N.M. & V.V.R.S.R. Educational Society, Gudlavalleru. The College, situated at Gudlavalleru is surrounded by lush green fields providing serene atmosphere to the learners. The college offers B.Tech. programme in six branches of Engineering, viz., Civil, EEE, ME, ECE, CSE & IT, and PG courses in MBA and M.Tech (SE), M.Tech (PEED), M.Tech (MD), M.Tech (ES), and M.Tech (CSE).

All the eligible UG engineering programmes are accredited by National Board of Accreditation (NBA), New Delhi. The college is accredited by NAAC with 'A' Grade. The college is also accredited by TCS.

About the Department:

The Department of Mechanical Engineering was established in 1998 and is offering B.Tech course in Mechanical Engineering and M.Tech in Machine Design. The department has qualified and experienced staff and well equipped laboratories with the state-of-the-art. Students of the department have added value to the department by getting placed in reputed core and software companies and by excelling in competitive examinations like GATE. The Department is marching forward keeping pace with the technological advances in Mechanical Engineering.

About workshop:

This workshop will be introductory in nature addressing the fundamental understanding as well as the applications of Metal Matrix Composites. The course has been designed for teachers / research scholars / professionals with an engineering background. Even though the subject of composite material is interdisciplinary in nature, emphasis has been laid in the present course on understanding the basic mechanics and design aspects of structural composites with a brief introduction to manufacturing. Expert speakers will reveal new developments and commercial applications.

Topics to be Discussed

- o Keynote address.
- o Manufacturing and Forming methods.
- o Characterization Techniques.
- o Recent trends and Future Trends in Metal Matrix Composites.
- o Applications.

Resource Persons:

Dr. D. Nageswara Rao

Advisor cum Distinguished Professor & Ex-vice chancellor, Centurion University of Technology and Management, Paralakhemundi

Dr. N. Bhargava Rama Mohan Rao

Professor, Department of Metallurgical Engineering, AU College of Engineering (A), Andhra University, Vishakapatnam

Dr. M. Gopi Krishna

Head of the Mechanical Engineering Department, Acharya Nagarjuna University, Guntur.

Registration fee per participant

Registration	IE Member (Rs.)	Non-IE Member (Rs.)
Industry	500	1000
Academic	200	300
Student	100	200

All the industrialists, research scholars, PG Students & academia can openly participate in the workshop. Fee can be paid in cash on the workshop day.

Last Date for Registration: 09-08-2018

To
The Director,
M/s Sri Krishna Jute Mills Ltd.,
Eluru.

Sir,

Sub:- Request for Permission to visit your industry - Reg.

This is to bring to your kind notice that, Sri Vasavi Engineering College is one of the leading Engineering colleges in this region. Under Institution of Engineers (I) Engineering College Students' Chapter, various technical activities are being organized to enhance the technical skills of students every semester. In this regard, i seek your permission to allow our II B.Tech., I semester Mechanical Engineering 'A' & 'B' section students (93 nos.) to visit your Industry. This Industrial visit will help our students to understand the various practices followed in a process industry. Two senior faculty members will accompany the students and list of students is enclosed herewith.

Thanking you,

Yours sincerely

Attention all II B.Tech I Sem ME Students

All the II B.Tech I Sem ME students are hereby informed that the Industrial Visit to M/s. Sri Krishna Jute Mills Ltd., Eluru will be conducted on 27.07.2018 (Friday) for 'A' Section students and 28.07.2018 (Saturday) for 'B' Section students under Institution of Engineers (India) Engineering College Students' Chapter, Mechanical Engineering Division.

All the students should assemble at college Administrative block by 10:00 AM sharp on the respective days. The senior Faculty members will accompany the students. All Students are Instructed to wear uniform with in-shirt, shoe and Id card without fail and should make their own food arrangements. Students should maintain discipline during the visit.

Head-ME 26/7/18

Vision:

- To be recognized globally as a place for quality education and research that produces well qualified, innovative and entrepreneurial Mechanical Engineers.

Mission:

- To impart quality education and develop competitive spirit with due consideration for ethical, ecological and economic issues.
- To develop linkages with world class R & D organizations and educational institutions in India and abroad for excellence in teaching, research and consultancy practices.

Brief Report on Industrial Visit

We have visited Sri Krishna Jute Mills Ltd., Eluru a public limited company incorporated in 1941 was promoted by Bhartia family of Kolkata involved in manufacturing of jute products. It has 3 jute units namely Collectively these mills are known as EAST INDIA GROUP.

The various stages in the processing of jute bags is as follows:

1. **Jute Carding** : The process by which long reeds of jute while passing through high speed pinned roller broken down into an entangled mass and delivered in the form of ribbon of uniform weight per unit length . There are three different carding sections.
 - (i) **Breaker carding** - Breaker carding machine soften jute after piling is feed by hand in suitable weight. The machine by action with different rollers turns out raw jute in the form of jute sliver for finisher carding. In this process root cutting is necessary before feeding the material to the hand feed breaker carding machine.
 - (ii) **Inner carding**
 - (iii) **Finisher carding** - Finisher carding machine make the sliver more uniform and regular in length and weight obtained from the Breaker carding machine. Finisher carding machine is identical to the Breaker carding machine, having more pair of rollers, staves, pinning arrangement and speed. Nearly 4 to 12 slivers obtained from Breaker carding machine is fed on this machine. The material thus obtained is send to drawing section.
2. **Jute Drawing**: Drawing is a process for reducing sliver width and thickness by simultaneously mixing 4 to 6 sliver together. In most mills 3 Drawing passages are used in Hessian and 2 Drawing passages are used in Sacking. There are three types of Drawing Frame machine.
 - (i) **First Drawing** - The slivers obtained from finisher carding machine is fed with four slivers on to the first drawing frame machine. The first drawing frame machines makes blending, equalizing the sliver and doubling two or more slivers, level and provide quality and color. This machines includes delivery roller, pressing roller, retaining roller, faller screw sliders, check spring, back spring, crimpling box etc.

- (ii) **Second Drawing** - The Second Drawing Frame machine obtain the sliver from the first drawing machine and makes more uniform sliver and reduce the jute into a suitable size for third drawing.
- (iii) **Third Drawing** – The Third drawing frame machine uses the sliver from second drawing. The Third Drawing machine is of high speed makes the sliver more crimped and suitable for spinning.
3. **Jute Spinning:** Spinning is the process for producing yarn from sliver obtained from Third drawing. The jute spinning frame machine is fitted with slip draft zone and capable of producing quality yarns at high efficiency.
 4. **Weaving :** Weaving is a process of interlacement of two series of threads called "wrap" and "weft" yarns to produce the fabric of desired quality. There are separate looms for hessian and sacking in weaving section. The Hessian looms, shuttle which contents cops (weft yarn) is manually changed. The sacking looms are equipped with eco-loader to load a cop automatically into the shuttle.
 5. **Dumping :** Dumping is the process in which the rolled woven cloth is unrolled and water is sprinkled on it continuously to provide desired moisture. Each roll is generally 95 meters. Damping is done manually.
 6. **Calendaring :** Calendaring is a process similar to ironing of fabric. After damping the damped fabric passes through pairs of heavy rollers rendering threads in fabric flattened and improve the quality and appearance.
 7. **Lapping :** Lapping is the process in which Hessian fabrics are folded into the required size used in "Bale press" operation on the lapping machine.
 8. **Cutting :** Cutting is the process where the sacking cloth is cut to the required length for making bags for different size such as A-Twill bags and B-twill bags of 100 kg capacity.
 9. **Hemming :** The raw edges of sacking cloth cut pieces are folded with sewing machine.
 10. **Herackele :** Sewing the sides of sacking cloth cut pieces to make a complete bag.

The packing of the bags as per customer requirement.

Report on Seminar Conducted by Mrs T Praveen

INDIAN INNOVATIONS

Introduction:- This was a class which was held on 13/7/18 (Friday) conducted at APJ Abdul Kalam Seminar hall. Regarding this he talk about the "India greatness" and also how to became an "innovative engineer."

* The Person name is "Mrs Praveen Kumar"

* The Person who took the class was came from Bangalore and he was working at "Bosch" Company from Past "six years."

* He was actually belong to the sector of "non auto motive" section.

India's greatness:-

In this thing he spoken about the great immigrant bodies who were in the different fields and working at great position and contributing their works.

Firstly he went through an video i.e. A physically handicapped person and some other people were laying on bed. when he switch on the radio The National anthem was playing soonly rain was started all were sunning but the person was stand with his one leg

This indicate that First try to respect our nation. if you can't respect the nation then how can you respect other. This was such an Motivational video which was inspired a lot.

Then He went to the Past telling that the india was discovered by Vasco da Gama in 1498. At that time he started in the largest ship in England when he came to india he found ten times larger ship than his ship. This show that the ^{India} has started the sea ways at a ~~longer~~ long time ago.

Then he also told about few Eminent Person such as.

* Aryabhata - who invented the zero. Now with out zero we can't imagine our world. this is a thing which make our life in a easy manner

* Sushruta - He was one of the earliest surgeons of india at 600 B.C. He lived nearly 150 years. He produce the basic Principles of Plastic surgery

* Zawan - He was a person who started the Production of Zinc at the north western india at Rajasthan.

- * In Earlier day diamonds were found in india in 4th century BC. These are first recognised in india along the rivers of Pennar, Krishna & Godavari
- * There is a Floating Pillar which was located at DePakshi in Anantapur in the 16th century.
- * There are some iron Pillars in delhi which are best proof these are built in 3rd - 4th centuries by King Chandragupt II,
- * He also mention about the First university of world i.e "TAKSHASHILA" which was a part in ancient india now it's in Pakistan.

After all the this he also mention about the Present immigrants who cause great Pride to india

- * Jay v Bhatta - He was an indian who developed the USB Cable in 1994
- * Satya Narayana Nadella - He was the CEO of Microsoft who giving his lot of Contribution in the developing of it.
- * Sundar Pichai - He was an Indian who is the CEO of Google.

4

* Jaypal Singh Banga - He was current President and the CEO of Master Card

* The Americans were told that the one IIT Mumbai is equal to their top three universities.

About innovative engineer:-

He also mention a possible way to become an innovative engineer. He told us to follow the Basic Five steps.

He told us to Find the Problem which was suffering us or our neighbours. After this he told to follow the 5 steps

Step 1:-

List all the Problems

After this give ranking to them on the basis of Pain

And select the top three according to you.

Step 2:-

Now think that which Problem that you can solve based upon your skills

Step 3:-

After selecting the Problem then think of a solution which can solve the Problem.

Step 4:-

Now implement the solution that you have found

Step 5:-

Don't do on the basis of result.
Be happy if it succeed or failure

This way every one can become an innovative engineer.
