About the Institute:

The Sri Vasavi Engineering College is an Autonumus Institution and it was established in the year 2001, and sponsored by Sri Vasavi Educational Society to promote Technological education to meet the requirement of a developing nation in the context of global concern at the threshold of the twenty first century. A team of educated, enlightened, experienced technocrats with vision, firmly determined to promote high quality education is striving to provide every facility for achieving excellence. The college is one of the best colleges in Andhra Pradesh. The college is Permanently affiliated to JNTU, Kakinada. 4 UG Programmes ECE, EEE, CSE & ME were accredited by NBA for 3 years. The Sri Vasavi Engineering College was accredited by NAAC with "A" grade.

About the Department

The Department of Electronics & Communication Engineering was established in the year 2001. It has become the most sought after department among engineering aspirants. The Electronics Engineering discipline has been so structured, in terms of experienced and excellent laboratory facilities, as to Equip the students with knowledge of latest technologies and give them adequate hands-on experience through laboratory work, innovative projects in Industry and Research establishments, seminars / workshops, MoUs and so on. The Department is accredited by NBA in the year 2013 and Re-accredited in the year 2019. The department is also offering the PG programme, M.Tech in VLSI & Embedded systems.

About the Programme

In-spite of the advancements in present day Technology, quest for innovation and research has been rising at pre-dominant level. To meet these requirements, one should take care of two major aspects-Performing research and documenting it. The first aspect "Research" varies with individuals/scenarios involved. Whereas the latter is common for all. A healthy research also requires good documentation as well as validity in terms of publications and filing Patents. With this requirement A 3 day faculty development program is going to be organized in our campus. The main focus of this programme to create awareness among faculty on software tools used to select and write standard research papers, drafting & filing the Patents.

Expected Outcomes of the Programme

After having attended this program, the participants will be able to
1. Acknowledge the importance of research.
2. Select an appropriate software tool towards documentation.
3. Analyze the documentation with the help of tool.
4. Identify right platform for publication of the work.
5. Document the patent & file the patent
