Description

As the world is gripped by the Covid pandemic we are witnessing an incredible process of the global community coming together to address a crisis that affects all of us. So what can you do if you are stuck at home but itching to do something positive for the environment? We NSS UNIT Sri Vasavi Engineering College came up with an initiative called vruksha sethu bridge of plants to do something positive for the environment during this pandemic. NSS, Sri Vasavi is calling up for a social media challenge in the hashtag of vruksha sethu. This is to everyone to plant green and pass over the challenge uniting the student community. Why vruksha sethu? To sustain nature which we have been contaminating. To deal with the drought of pure breathing air. To green environment keeps health pink. To feel the pleasure of clean environment. Studies have shown that spending short amounts of time in forests seems to benefit immune system. Students and general public enthusiastically participated in this well caused programme.
